## **Professional Summary**

Full-stack developer with 3+ years of experience building scalable web applications using MERN stack, Next.js, and cloud technologies. Passionate about creating performant, user-centric solutions and optimizing development workflows. Proven track record of delivering production-ready applications from concept to deployment.

## **Technical Skills**

- **Frontend:** React.js, Next.js (App Router), TypeScript, Tailwind CSS, Redux Toolkit, React Query
- **Backend:** Node.js, Express.js, FastAPI, Python, RESTful APIs, GraphQL
- **Databases:** PostgreSQL, MongoDB, Redis, Supabase
- **Cloud & DevOps:** AWS (EC2, S3, Lambda), Docker, CI/CD pipelines, Vercel, Render
- **Tools:** Git, GitHub, Postman, VS Code, WSL2, Figma

## **Professional Experience**

### **Full-Stack Developer | TechStart Solutions | June 2022 – Present**

- Built and maintained 5+ full-stack applications serving 10,000+ monthly active users using Next.js, FastAPI, and PostgreSQL
- Implemented server-side rendering and static generation, reducing page load times by 40% and improving Lighthouse scores to 95+
- Designed and deployed scalable backend services on AWS Lambda with API Gateway, cutting infrastructure costs by 30%
- Established CI/CD pipelines using GitHub Actions, automating testing and deployment processes across development and production environments
- Collaborated with cross-functional teams to implement authentication systems using JWT and OAuth 2.0, enhancing application security

### **Junior Web Developer | InnovateLabs | January 2021 – May 2022**

- Developed responsive single-page applications with React.js and Redux, improving user engagement metrics by 25%
- Integrated third-party APIs for payment processing (Stripe) and email services, streamlining business operations
